WE ARE YOUR PARTNERS

Spencer's multi-cultural design team offers clients holistic solutions – both creative and logistic to ensure the client maximises not only on functionality of the space, but also their ROI. Consulting on all aspects of the project - from helping choose the site that is most suited and relevant to the business aspirations, applying the latest research and trends to deliver an inspiring and agile environment, to incorporating technology solutions, Spencer delivers projects that can evolve and adapt to the client needs.

Our open and effective communication helps us understand you, your brand, and your unique requirements better. It allows us to share the constraints and potential opportunities regarding the project. The result of this is an innovative design solution and a smooth on time and on budget project delivery.

Your brand. Our passion.

CREATING WORKSPACE THAT WORKS

Spencer helps you find the perfect balance between functionality and aesthetics for your workspace. Our creative team, space planners and architectural technicians track the latest design trends and philosophies; collaborating in a dedicated design lab studio with latest version equipment and software to create the optimum workplace that fully reflects the corporate brand and culture as it inspires people.

We ensure that every client is involved in every step of the design process through consultation, guidance & feedback about each aspect of the building's interior. A designated designer works in partnership with the client team, understanding the vision and aspirations, with the aim to deliver a design solution that is as unique as the brand.

FIT OUT building concepts to reality

Ensuring that every element of your newly designed space expresses your brand value and your aspirations, from the entrance and reception to the dynamic, productive and efficient collaboration space, is the essence of our fit-out.

At Spencer, we offer:

- Complete fit-out, from shell and core to occupancy.
- Category A fit-out for landlords and developers.
- Refurbishment of existing properties.
- Restack and reconfiguration of occupied premises.
- Facilities and property management partnering.
- Technical infrastructure and engineering solutions.

“ It’s much more than just another fit out. A great work space is a place which enables relationships to be developed, ideas shared, people to succeed and a business to flourish. “

Irrespective of whether the design is created by our in-house design team or your chosen designer, we are devoted to delivering a total quality fit-out experience to your project.

Spencer Interiors believes that a human-centric environment is crucial for any business to grow. Here, we balance that approach with your current and future business needs, improving your operational efficiency and enhancing your corporate image through sustainable design & fit-out. Our aim is to deliver defect-free projects on time and budget, through our expertise and commitment, thus justifying our value.

Fundamentally, we design to stand the test of the time!

sustainability

Protecting the earth's resources for the benefit of future generations is seen as a key part of our corporate social responsibility. Spencer endeavours to ensure that all key raw materials are procured from sustainable or recycled sources. The use of sustainable and recyclable materials is an explicit part of the design risk assessment process incorporated into all project design development. The commitment to the environment permeates through to our supply chain. Sustainability is a key criterion in material and equipment supplier selection and appointment.

corporate social responsibility

It is Spencer Interiors' objective to conduct its business in a manner that is based on the highest standards of ethics and integrity and in a manner which minimises the impact of its operations on society and the environment. Compliance with relevant regulations is merely the baseline from where we start - the Company aspires to excellence. To this end, Spencer has developed its policies, management focus and partnerships with key stakeholders to ensure a culture of progressive improvements in the key areas

of the environment health & safety, business ethics, employees and the local community.

The Spencer Board takes account of the significance of environmental, social and governance matters as part of the regular risk assessment process.

“ At Spencer, it’s all about you! “
